LUYOLO PALISO

PROFILE

As a young and vibrant entrant into the industry, my goal is to harness my skills and mould myself into the complete Web Developer and User Interface Designer I have always dreamt of becoming.

With my inquisitive nature, I am constantly searching for the appropriate solutions to any problems I may encounter.

I never rest on my laurels, and this is shown in my never-ending desire to continue learning.

My hunger to constantly learn is very evident with the amount of new learning material (notably the Udemy certification) I have been able to consume and utilize, although being a recent graduate.

I see myself as an asset in any position I am put in, mainly because of my desire and my constant need to understand and solve problems.

WORK EXPERIENCE

Freelance Web Developer
Jan 2020 – present

Since the turn of the current year, I have been putting my skills into practice by formally offering a service of creating attractive, fast loading and mobile friendly websites.

The decision to explore the world of freelancing has also helped me a great deal in expressing my skills at my own capacity, such as; time management, client engagement, documentation skills and effective communication.

You can find more detailed info on all my recent live projects on my portfolio website:
